ABOUT ME

Full-Stack web developer leveraging a customer service background to build a more intuitive user experience on the web. Recently earned a certificate in full stack development from the University of California San Diego, with newly developed skills in HTML, MYSQL, MongoDB, JavaScript, CSS, React.js, and responsive web design. Known as a tenacious problem solver passionate about application innovation, with a focus on design and development. I remain teachable with a strong work ethic, ready to tackle rapid technologies with an open mind and a team-oriented focus. With each project, my aim is to best engage my audience for an impactful user experience. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

EDUCATION

UCSD CODING BOOTCAMP, San Diego — *Certification*

June 2020 - August 2020

Introduced rapid self learning of current technologies.

PROJECTS

EMOSIC — *Music application*

An application that introduces users to new artists based on their mood.

Mix It Up— *Cocktail generating application*
